

## **NOTE OF THE IMPLEMENTATION ENTITY STEERING GROUP (IESG) MEETING – 30<sup>TH</sup> SEPTEMBER 2016**

### **Minutes**

The IESG agreed the minutes of the 21<sup>st</sup> September IESG meeting subject to correcting the attendee list.

### **Recruitment**

An announcement on the Implementation Trustee will be made shortly. Recruitment into the IE posts is now underway. Senior positions will be directly recruited to ensure the work-streams are independently led. Work-stream leads will formulate clear plans for their work-stream.

### **CMA pack**

The group agreed the CMA pack comprising of:

- Implementation Entity foundation and start-up;
- Programme Approach Document;
- Composition;
- An overarching summary.

A few points of clarification were made. The work-streams would include external expertise which would be determined by the Advisory Group convenors. The Programme Management Group currently included representation exclusively from the nine named banks. It was agreed to keep this under review. The group noted the importance of the PSD2 Advisory Group in ensuring that the CMA remedy solutions are PSD2 compliant. It was confirmed that the 2 customer representatives would be advisors on the Steering Group.

The pack was sent to the CMA later that day.

### **KPMG**

The group noted the KPMG analysis of the CMA report and asked for more time to consider it in detail. **Action:** group comments please by Wednesday close.

### **Data and security work-streams**

The group noted that the data and security work-stream were now mobilising on an informal basis.

### **Advisory Group**

The group noted the expressions of interest that it has received to convene Advisory Groups. The convenors should be able to demonstrate that they could commit time to convening their interest group, represent its interests and show broad coverage, and manage the flow of expertise into the work streams. The Secretariat would write to potential convenors setting out the requirements and inviting potential convenors to set out their credentials. **Action:** PM

### **Registry**

The group discussed the procurement of a registry and invited the Programme Director to provide a paper to the next Steering Group. **Action:** KH
