Key milestones...

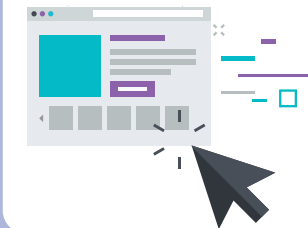

7 September

Updated Standards released (version 3)

We released an updated version of the Open Banking Standards, extending Open Banking to credit cards, pre-paid cards and e-wallets in all currencies and offering a PSD2-compliant solution for account providers.

7 September

All CMA9 are now live with version 2 of the Standards

13 September

Customer Experience Guidelines published

These new guidelines set out how account providers and third party providers can create a consistent customer experience when implementing Open Banking.

Powered by Open Banking...

Token becomes the first third party provider to make an Open Banking end-to-end payment with all CMA9 banks.

Barclays allows customers to bring their other current accounts into its Mobile Banking app.

Yolt announces successful API connections with all CMA9 banks.
